

# Say It's Over

Kaskade

From where I stand, I can see the stars,  
Surrounding us tonight  
From far away, I can see them shine  
See their little lights,

See its over,  
C'mon say it, over  
There's no give and take here,  
Nothing more at stake here

See its over,  
C'mon say it, over,  
Staring into nothing  
(Staring into nothing, nothing)

From where I stand, I can see the stars,  
But are they more than lights?  
And do I know, if they're still alive?  
That echoes through the night.

See its over,  
C'mon say it, over  
There's no give and take here,  
Nothing more at stake here

See its over,  
C'mon say it, over,  
Staring into nothing  
(Staring into nothing, nothing, nothing)

C'mon say it, over  
(Over [7x])

All I know,  
You could be a ghost in my head,  
So I won't give my world for this no,  
Blinded by a light that has opened up, years ago [?]

See its over,  
C'mon say it, over  
There's no give and take here,  
Nothing more at stake here

See its over,  
C'mon say it, over,  
Staring into nothing  
(Staring into nothing, nothing, nothing)

See its over,  
C'mon say it, over.
