

Take U There

Kaskade

Take you there

You're a snack, not a whole damn meal

Wanna escape

Go to that place that's in your head

Boy, it's alright that's what you said

Take me there

Wanna escape

Go to your place and live with you

Walk up those stairs into your room

I'll take you there

You, you never call me

And you, you're never with me

Even when you're, even when we're

I'll...

I'll take you there

I'll take you there

You, you never call me

You

I'll take you there

You, you never call me

You

I'll take you there

I'll take you there
