Kaskade

Naked in your arms
Lying underneath the stars
Bodies making art
Maybe this is what we are

Monday turns into Saturday
Lost in time
Take my breath away
All my life
Always looking for you

Oh I've been touched
I've been touched by an angel
No need to rush
Safe inside your halo

Closing up the door
Baby I will adore you
Anything you wanna do
Anything for you

Closing up the door
Baby I will adore you
Anything you wanna do
Anything for you

My name on your tongue
Sweet like falling deep in love
Keep it on replay
Nothing's in our way, our way

Monday turns into Saturday
Lost in time
Take my breath away
All my life
Always looking for you

Oh I've been touched
I've been touched by an angel
No need to rush
Safe inside your halo
Oh I've been touched
I've been touched by an angel
No need to rush
Safe inside your halo

Closing up the door
Baby I will adore you
Anything you wanna do
Anything for you

Closing up the door
Baby I will adore you
Anything you wanna do
Anything for you
