

We Don't Stop

Kaskade

We hold who we are
Carry the weight of the storm
And we hope to be whole
Buried where memories are born

We don't stop
We don't stop for no one
We won't break
The world won't wait for you
We don't stop
We don't stop for no one
We won't break
The world won't wait for you

We hold who we are
Carry the weight of the storm
We were born to be Gods
Chasing the light that we are

We don't stop
We don't stop for no one
We won't break
The world won't wait for you
We don't stop
We don't stop for no one
We won't break
The world won't wait for you

We don't stop
We don't stop for no one
We won't break
The world won't wait for you
We don't stop
We don't stop for no one
We won't break
The world won't wait for you
