

# Black Motorcycle

Kassi Ashton

Lay back on the back of your black motorcycle  
Lay back on the back of your black motorcycle  
Lay back on the back of your black motorcycle  
Lay back on the back of your black motorcycle

Ride me into the midnight, I don't need no sleep  
Pick me up like I hitchhike, got a need for speed  
The sound of goodbye sounds good to me

You can be my easy rider  
I'll be the gasoline, baby, you're my lighter  
Kiss me and take me a million miles  
All the way

Lay back on the back of your black motorcycle  
Lay back on the back of your black motorcycle  
Lay back on the back of your black motorcycle  
Lay back on the back of your black motorcycle

With the wind in our hair and the wings on our back  
We'll be rolling mother lovers on the blacktop track  
No matter where you take me, long as you take me fast

You can be my easy rider  
I'll be the gasoline, baby, you're my lighter  
Kiss me and take me a million miles  
All the way

Lay back on the back of your black motorcycle  
Lay back on the back of your black motorcycle  
Lay back on the back of your black motorcycle  
Lay back on the back of your black motorcycle

I am free finally  
I am free finally

Lay back on the back of your black motorcycle  
Lay back on the back of your black motorcycle  
Lay back on the back of your black motorcycle  
Lay back on the back of your black motorcycle

You can be my easy rider  
I'll be the gasoline, baby, you're my lighter  
Kiss me and take me a million miles  
All the way

Lay back on the back of your black motorcycle  
Lay back on the back of your black motorcycle  
Lay back on the back of your black motorcycle  
Lay back on the back of your black motorcycle
