

# Dates In Pickup Trucks

Kassi Ashton

I'm not gonna lie it's boring as hell here  
It's Friday night and I want some cold beer  
I know you know just right where my phone is  
Call it

'Cause I know you like me  
I like you too  
We did this last weekend  
But baby it's cool yeah  
As long as it's with you  
I ain't never ever gon' get tired of

Dates in pickup trucks  
Get my lip gloss all messed up  
Put a little something something in a Sonic cup  
When the sun goes down  
Blue jeans with my boots  
Find a little trouble we can get into  
What else are you gonna do in a small town  
In a small town, in a small town  
But dates in pickup trucks (alright, alright)  
Dates in pickup trucks (alright, alright)

I know it's payday so let's throw a party  
Find us a backroad and see just how far we can go  
I'll leave my battery out the window

And baby if you wanna  
Keep this situation on the low down  
And when they wonder what happened  
We'll be sittin' there, laugh and say we were just hangin' out
