

The Stars Know

Kassi Ashton

It was a full moon, it was a cool night
You had a paper bag under the seat
You had a lighter, I took my shoes off
And it wasn't just to kick up my feet

If what we were doing had a soundtrack
It would be "Night Moves" back-to-back

We were flying, crossing lines
Losing out minds and our innocence
We called it love like we knew what it was
Riding the buzz, not riding the fence
Levi's get hung up, feelings get tangled
More than you planned on Strawberry Road
Time is a thief and secrets don't keep
There's a whole lotta me only you and the stars know

There's 400 miles 'tween here and back then
I ended up where I wanted to be
Reminiscing don't mean I love you
But I kinda like the memory

We were flying, crossing lines
Losing out minds and our innocence
We called it love like we knew what it was
Riding the buzz, not riding the fence
Levi's get hung up, feelings get tangled
More than you planned on Strawberry Road
Time is a thief and secrets don't keep
There's a whole lotta me only you and the stars know

If what we were doing had a soundtrack
It would be "Night Moves" back-to-back

We were flying, crossing lines
Losing out minds and our innocence
We called it love like we knew what it was
Riding the buzz, not riding the fence
Levi's get hung up, feelings get tangled
More than you planned on Strawberry Road
Time is a thief and secrets don't keep
There's a whole lotta me only you and the stars know
