

Your Angel

Kassi Ashton

Did the neon North Star pull you into this well
It shines twice as bright here in holiday hell
There's no mistletoe on that two for one sign
And I know we just met and now it's closing time

But I'll be the angel
On top of your tree
My halo is busted
But I can still sing
I'll light up your midnight
All Christmas Eve
I'll be your angel
I've always wanted wings

Your place is nice, I don't mind that it ain't
Strung up with tinsel and red candy canes
Turn an old, sad, black and white movie on
And love me until we decide Santa's gone

But I'll be the angel
On top of your tree
My halo is busted
Oh, but I can still sing
I'll light up your midnight
All Christmas Eve
I'll be your angel
I've always wanted wings

I'll light up your midnight
All Christmas Eve
I'll be your angel
I've always wanted wings
