

Hey, in my thoughts
I'm plotting out the ways to tie his heart in knots
Its love on the rocks
I put him on my pedestal and then I let him drop
I'm a pretty flower but I sting him like hell
I'm playing with his mind
I can't help myself
Enchant him with the dance and put him under my spell
And I know that I'm no good for his mental health

I'm 302 in my baby
He's sick and I'm his disease
I'm crazy
He always trying to leave me
But he don't wanna be free
He's crazy

Like it or not
I'm the mastermind
I control your heart
And you can't connect the dots
So you live with that disease till your body rots
I'm a pretty flower but I sting him like hell
I'm playing with his mind
I can't help myself
Enchant him with the dance and put him under my spell
And I know that I'm no good for his mental health

I'm 302 in my baby
He's sick and I'm his disease
I'm crazy
He always trying to leave me
But he don't wanna be free
He's crazy

He always trying to leave me
But he don't wanna be free
He's crazy

You're falling in so deep
Baby, you can't cease
To falling to your knees
As to marry me
Falling in so deep
Baby, you can't see
You're falling
You're falling to your knees

I'm 302 in my baby
He's sick and I'm his disease
I'm crazy
He always trying to leave me
But he don't wanna be free
He's crazy

He always trying to leave me
But he don't wanna be free

He's crazy
