

# Can't Get Enough

Kat Graham

Never felt like this before  
One look was all it took  
And after I was hooked

I couldn't just walk away  
If I had a taste I know I'd have to stay  
Boy this is killing me  
Walking in but I gotta leave

Every time I feel like letting go  
You pull me right back in for more  
And I can't seem to let you know  
That I'm done and I can't do this anymore, no  
When I try to get away  
You find a way to make me stay  
You always seem to get your way  
It's your love and your touch

Can't never get enough of ya

Never felt like this before  
It started with a kiss  
And after that was whipped ooh  
You make me feel so good  
One night, two to three  
Still counting days to weeks

Can't seem to tell him no  
Trying to go but I'm holding on

Every time I feel like letting go  
You pull me right back in for more  
And I can't seem to let you know  
That I'm done and I can't do this anymore, no  
When I try to get away  
You find a way to make me stay

You always seem to get your way  
It's your love and your touch  
Can't never get enough of ya

Every time I feel like letting go  
You pull me right back in for more  
And I can't seem to let you know  
That I'm done and I can't do this anymore, no  
When I try to get away  
You find a way to make me stay  
You always seem to get your way  
It's your love and your touch  
Can't never get enough of ya
