

# Koolaid Man

Kat Graham

It's hot and we're burning up  
Can't stop, gon' light it up  
Ain't got a drink in my cup  
Call the Koolaid man and the fire truck  
It's hot and we're burning up  
Can't stop, gon' light it up  
Ain't got a drink in my cup  
Call the Koolaid man and the fire truck

We in the heat of love, it's you I need  
You make me sweat, oh, yeah, you make me weak  
This feeling started when you looked at me  
No one can put this out, we're staying free

Can't stop this fire  
Gonna blaze it like the sun light  
No we can't get higher  
We gon' keep it going till' we burn this mother down

It's hot and we're burning up  
Can't stop, gon' light it up  
Ain't got a drink in my cup  
Call the Koolaid man and the fire truck  
It's hot and we're burning up  
Can't stop, gon' light it up  
Ain't got a drink in my cup  
Call the Koolaid man and the fire truck

Getting this fever on, what's hitting me?  
Temperature rising, two hundred degrees  
You send me off so high, you smoking me  
And when you melt me, I can barely breathe

Can't stop this fire  
Gonna blaze it like the sun light  
Now we can't get higher  
We gonna keep it going till' we burn this mother down

It's hot and we're burning up  
Can't stop, gon' light it up  
Ain't got a drink in my cup  
Call the Koolaid man and the fire truck  
It's hot and we're burning up  
Can't stop, gon' light it up  
Ain't got a drink in my cup  
Call the Koolaid man and the fire truck

If you can't put it out, it's too hot to stop  
So let those flames roll, going out of control  
You can't put it out, it's too hot to stop

So let those flames roll, going out of control

It's hot and we're burning up  
Can't stop, gon' light it up  
Ain't got a drink in my cup  
Call the Koolaid man and the fire truck  
It's hot and we're burning up  
Can't stop, gon' light it up  
Ain't got a drink in my cup  
Call the Koolaid man and the fire truck
