

What The Funk

Kat Graham

Thinking about you baby
And how you make me crazy
How I miss our problems our fights and all our dramas

What I'mma give to have a night
It's time that you be right
You can say I never
Don't you leave me ever

Every time on the rewind
Thought we were good but you were on the flatline
We gonna try and try to make this thing right
But you too dumb to give me such a good vibe

What the Fuck do, I do, I do without you
What do, I do, without you now
What the Fuck do, I do, I do without you
What do, I do, without you now

You would never wanna be
Just to me a memory
What's done is done
You can say to me
But that don't change reality
When you were here i'd make believe
That we had all eternity
I would call and you would say
I'm here for you come be with me

Every time on the rewind
Thought we were good but you were on the flatline
We gonna try and try to make this thing right
But you too dumb to give me such a good vibe

What the Fuck do, I do, I do without you
What do, I do, without you now
What the Fuck do, I do, I do without you
What do, I do, without you now

What the funk

What the Fuck do, I do, I do without you
What do, I do, without you now
What the Fuck do, I do, I do without you
What do, I do, without you now
(Without you now)
