Metal And Hell

Blindman stop I'll help you God told you only lies Shouted fast Prasing fear He built churches with your blood. Metal, truth is black metal Metal, truth is black metal And Hell Metal, truth is black metal Metal, truth is black metal Dark as night Blindman, night is my world World facing great works I'm here time has come For you to recognize How my force How angry shrieks Shrieks of sin drown cries Of virtuous souls, souls Metal, truth is black metal Metal, truth is black metal Strange the fear, terror and lies And screem

And screem And screem I love Satan Six, six, six.
