

## Uninvited Guest

Kat

In the endless space  
Of human ignorance  
The embittered insane thoughts  
Are searching for their lost home  
Somewhere among hyenas of society

I hear the voices say to me  
Nothing's gonna change you  
Any more, any more

I'm diving in the shadow  
Living in the trap  
Always on the dark side of the moon

Unwanted guest

Sign on the clouded sky  
Like omens spins the tale of silver moon  
Moon  
Embrace of cosmic might  
I'm living in the sphere  
Beyond reach of humans  
Hyenas - hyenas

Hi my hyenas, here I'm, your plague  
Hi my bloody dogs, I'm fear, venom, death

I'm the demon of your minds, of your minds  
I'm the nightmare of your dreams

You know your time is running out  
You'd better start to pray  
I will come to you  
Like uninvited guests  
Like uninvited guests

Hi my hyenas  
Here I am, your plague  
Your plague  
Your plague  
Your plague  
Your plague
