

Wild

Kat

Wild
when you turn on your lights
when you turn all the lights on
Yeah, wild
when you open your eyes
flaming sapphire eyes
Then I'm wild
wild

You only shrug your shoulders
you only turn around

Wild
when you turn off the lights
when you turn all the lights off
Wild
when you only close your eyes
tempting sapphire eyes
then I'm wild
wild

You only shrug your shoulders
you only turn around
You're a nimble black wild panther
running alone

And when I first met you alone
you told me to stay where we belong
I know there's a jungle of life
we are in the wild

Always wild
when you open your eyes
when you turn all the lights off
Wild
when you only open eyes
flaming sapphire eyes
then we're wild
wild

You're a nimble black wild panther
Why are you running alone?
You told me to stay together
where we belong
