

# Icarus Falling

Kataklysm

Ambition beyond your wildest dreams  
You can't stop me, I wanna reach the sky

Hold on, like never before  
As chaos descends, the burning fire  
Feeds my soul, feeds my sanity  
Irrationality

The winds are calling, immortal wound  
I'm driven, everlasting  
Mental degradation, fighting spirit alive  
I'll never fail, I'll never fail you

Icarus falling  
Icarus cursed  
Icarus falling  
Icarus cursed

Sometimes I feel like the world has let me down  
Sometimes I feel like my wings are burning

Hear me now, deaf to the world  
Falling from the sky, dying inside  
Sadness engulfs me, tears of blood  
Dysfunction of will, honor 'til death

Holding on, fighting the dawn  
Wearing me down, I see the sun

I see the sun  
I'm falling  
I'm falling

My wings are burning  
My hope is dying  
Save me
