Kataklysm

I told you before and I'll tell you again  
I'm the last one you'll see before you die  
I came from the gutter  
Just to see you suffer

Don't say a word, don't even breathe  
All the poison you spill, all the lies you feed  
Designed to kill and torture lives  
All the innocent darkness with no regrets

No regrets

This chaos you bring, a symphonic greed  
As you fall in your fate, the abysmal doom  
These hypocrite lies made to enslave  
As you sharpened the blade... incarcerate  
I've seen you stumble in your weakened soul  
All the broken promises untold  
The blood will spill, there's no escape  
I'm here to say, your time is over

You think you know it all... But before you open your mouth, you need to take a hard look in the mirror, learn how to walk the walk before you talk the talk.

Outsider  
Outsider

It's who I am, it's what I live for  
Two steps from the grave... always  
I came to kill your heroes  
I came to kill your heroes

No place to live, no place to die  
No heart to break and no guilt to take  
All the things you said, I'll never forget  
You push to kill, there's no remorse  
I step inside your pitiful life  
And tear apart all your broken lies  
I can't express all the anger inside  
I'm sick of the world as it comes undone
