

When It's Over

Kataklysm

Dear god, I dug a hole
So deep I could bury my soul, can you hear me now?
I bring the somber, I bring the darkness
I live to die in this world you made of fire

Hey remember
When it's over I bled for you
Hey remember
When it's over you took my heart away

Stricken from the inside
I can't let go, the madness overcomes
Witness my weakness alive
Everything unfolds, everything falls...

Dear God, I've risen for the fallen
Abandoned, can you hear me now?
I bring despair, I bring cold air
The life of the sinner, the same who dies like you

Hey remember
When it's over I bled for you
Hey remember
When it's over you took my heart away
