

# Bounce

Katchafire

## Verse 1

Said I've got much love for you darling  
But I'm still gonna roll with the rhythm  
Well I hope you understand girl  
I hope you understand the way I'm living  
Hope I'll be forgiven  
I didn't mean to be the villain yea, yea, yea  
So you better hold my hand girl  
This is exactly where I'm heading

## Bridge

The rhythm is pulling me into the place  
Where all negativity cease to exist yeah  
Finally I'm trapped on a planet on my own in space  
When Babylon falls it go hit you in the face (x2 Second time, x  
3 Third Time)

## Chorus

Feel the rhythm, Bounce to the rhythm
