

## I and I

Katchafire

My red eyes can't see where you coming from, woe  
The nature of the boy is the nature of the man, woe  
I and I slide from detective squad  
I and I are going to chant down Babylon  
We bring surprise with the magic potion  
I and I feel Jah rhythm

'Po 'Po man roll and patrol your section, woe  
We in disguise from his attention, woe

I and I slide from detective squad  
I and I are going to chant down Babylon  
We bring surprise with the magic potion  
I and I feel Jah rhythm
