

# I Got Ya Back

Katchafire

Holla  
Whenever I see you  
Whenever you see me girl  
Whenever you want me, I'll be there  
Whenever you need me girl, I'll be there  
I got your back whenever you want me girl  
I got your back whenever you need me girl

I've got you girl right in the centre of my heart  
I've got your girl and its alright  
I've got your girl right in the centre of my heart  
I've got your girl and its alright

Holla  
Whenever you want me, I'll be there  
Whenever you need me girl, I'll be there  
I got your back whenever you want me girl  
I got your back whenever you need me girl  
Its what you do  
You come and carry my heart away  
What you do you know I thank you  
What you do  
You come and steal my heart away  
What you do you know I thank you
