

Lead Us

Katchafire

A fatality up in the streets and another brother falls in the ghetto, yeah
And if you ain't really happy with things then you much change your approach
There goes another brother, he's gonna take you under, they need you to fill up their jail cell
In most scenarios we choose the easy road. but that ain't how it's supposed to end
Come back and lead us
Ante up, come back and lead us
Come back and lead us - Oh my people need ya
Ante up, come back and lead us
Yeah
Ooh Yeah
Cater to your every need yeah ie yeah
All we really need is someone to look up to -Someone to lead
All we really need is someone to hold on to -Someone to believe
They try to take our culture
They try to segregate
They try to take away our birthplace
Caught up and sold my mother
They try to separate

Put a tender on her head
Come back and lead us. My brother
Wahine toa (woman) come back and lead us - My sister
Wahine toa (woman) come back and lead us - Yeah
All my people say getup getup getup getup getup

He always doing what they always counted on you... to do...
Babe I've been.. caught up in your groove... for some time...
