

Say What You're Thinking

Katchafire

Go hard..
Say What you are thinking.
Slow and ..
You'll get no respect if you can't
Say what you feel, be sure
Feel your execution perfect
Go hard
Say What you are thinking
Slow and
You'll get no respect if you can't
Say what you feel, be sure

Feel your execution perfectly

And I trust you will
Definitely
Mmmmm...Uncensoridly
When you get the trill
Take it and scream
People fear me knocking, yeah

To think that no one else is ever to feel it in
The way you can look up is no sin
No one can think about you negatively

Hoaw Negatively

Go hard
Say What you are thinking
Slow and
You'll get no respect if you can't
Say what you feel, be sure
Feel your execution perfect
Go hard
Say What you are thinking
Slow and
You'll get no respect if you can't
Say what you feel, be sure

Feel your execution perfectly

Make them listen till
They can all see
Their hypocrisy
When they realize
They can all see
People fear me knocking

To think that no one else is ever to feel it in
The way you can look up is no sin
No one can think about you negatively

Hoaw Negatively

To think that no one else is ever to feel it in
The way you can look up is no sin
No one can think about you negatively

How Negatively

Mmmmm... Negatively.
