

God Interlude

Kate Bollinger

You gave me the keys and the car and the road
But I'm not scared of you
You made all the trees and the roots and the seeds
But I'm not scared of you

Are you the bird floating up there above me
Or in my room saying you love me?

You showed me the lakes and the breeze and the sky
I'm not so sure about it
You told the bear in the winter to hide
I'm not so sure about it

Are you the bird floating up there above me
Or in my room saying you love me?

I hate you 'cause you age me
But I love you when you teach me new ways to be
