

Postcard From A Cloud

Kate Bollinger

Oh, my friends
How's it going?
I think about you
More than I'm showing
Start the engine
Make sure it runs
You're so tiny
Down in the dust

My love
I'm coming to you from somewhere above
My heart
I'm stuck in a cloud, there's no way out now
My God
I'm talking to you, don't do this a lot

Lazy day
Through mist and mountain
Waterfall
Became my fountain
Up on the wind
I'm writing to you
And if I fall
I won't forget you

My love
I'm coming to you from somewhere above
My heart
I'm stuck in a cloud, there's no way out now
My God
I'm talking to you, don't do this a lot
My one
I'm searching for the most improbable sun
