It's Only Christmas

Kate Ceberano

Do you remember what you wished for every Christmas?

Do you say a prayer and send it on a star?

Well maybe I'm just being over sentimental.

But now its Christmas and I miss us most of all

You know I never really took the time to thank you

I was always thinking you were here to stay

Is it's something in the air that gets me crazy

Cause now its Christmas and I miss us just the same

When it's cold I get lonely

I can't talk I can't walk I can't breathe

Then I dream and you hold me and the angels are singing with me

I guess its Christmas when I miss us most of all

So let the snow come down and drown out all my sorrows

Maybe I can dance again with you

And as the children sing I swear I heard you whisper

That now its Christmas but I miss us just the same

When it's cold I get lonely

I can't talk I can't walk I can't breathe

then I dream and you hold me and the angels are singing with me

I guess its Christmas when I miss us most of all

I guess its Christmas when I miss us most of all

Cause now its Christmas and I miss us most of all
