

# Can't treat me that way

Kate Earl

You're not the guy I met  
And if you are only get  
One chance to prove it  
Baby make it count

Maybe she let you do that  
Maybe some other fool had  
Too many problems  
To respect herself

You've got a woman who knows her worth  
And ain't prepared to compromise it  
You better listen you better make it better  
But don't make me say  
You can't treat me that way  
Ooooh

Maybe it's my mistake  
Simple misunderstanding  
Trivial bullshit we blew into space  
A common lovers rift  
Uncommon words thrown like fists  
Cause if you meant it  
Baby it's too late

You've got a woman who knows her worth  
And ain't prepared to compromise it  
You better listen you better make it better  
But don't make me say  
You can't treat me that way  
Ooooh

You better make it better  
You better make it feel right  
You better make it feel the way it ought to feel  
You better make it better  
You better make it feel good  
You better do it cause you know that you should

You've got a woman who knows her worth  
And ain't prepared to compromise it  
You better listen you better make it better  
But don't make me say  
You can't treat me that way  
Ooooh
