

# A Better Way to Love

Kate Havnevik

When you see your name  
In the Hall of Fame  
And the world agrees to love you

Will it feel as good  
As you thought it would  
When they all stood high above you?

But dreams get stuck  
When you're waiting for luck  
And all flights out have been grounded

We want to achieve  
We're all desperate to leave  
But they've got this place surrounded

Umm, and I  
Think about you, in and out, I  
Don't know why

And I try  
To get within my jealousy  
Can someone go live  
With a better way to love?  
With a better way to love

The mirage grows  
When you're in too close  
And nothing is what it seems  
Nobody's perfect  
What did you expect?  
When you're blinded by beautiful dreams

Umm, and I  
Think about you, in and out, I  
Don't know why

And I try  
To get within my jealousy  
Can someone go live  
With a better way to love?  
With a better way to love

When you see your name  
In the Hall of Fame  
And the world's agreed to love you

Does it feel as good  
As you thought it would  
When they all stood high above you?

Umm, and I  
Think about you, in and out, I  
Don't know why

And I try  
To get within my jealousy

Can someone go live  
With a better way to love?  
With a better way to love  
With a better way to love  
With a better way to love
