

## At First Sight

Kate Havnevik

A sting through my heart  
I'm anxious and breathless  
I need to know more  
Right now

I can't help myself  
I'm such a failed bomb  
You're making your way deep inside

(This must be)  
At first sight, at first sight  
So hold on tight, yes hold on tight  
At first sight, at first sight  
So baby hold on tight

Sirens go off  
Blissful emergency  
You can't calm me down  
I'm alive

Here it comes  
Here it comes

At first sight, at first sight  
So hold on tight, yes hold on tight  
At first sight, at first sight  
So baby hold on tight

It doesn't compute  
Impossible feelings are taking place  
You're almost too close  
I have no defenses  
And it's beautiful

At first sight, at first sight  
So hold on tight, yes hold on tight  
At first sight, at first sight  
So baby hold on tight
