

## Dont go

Kate Havnevik

The sun is up  
The road is clear  
Reaching for you  
You are wide awake I'm fast asleep  
But I know what's on your mind  
What's in your head?  
Just don't come back for me to save you

Go if you want  
I'll be fine here on my own  
Take it all if you have to  
I can make my own new home

You're riding high to lose the blame  
You lose control and  
There is sounding from far away  
Solitude suits you well  
You said  
But see how we've become a living hell

Go if you want to  
Cause I'll be fine here on my own  
Take it all if you have to  
I can make my own new home

Go if you want to  
Cause I'll be fine here on my own  
Take it all if you have to  
I can make my own new home  
Just take it all if you need to  
Cause I can make my own new home

Just go....
