

The River

Kate Havnevik

Put your hand in my heart
Feel the heat
Then melt into mine
You can read the stars and see planets rise
But can you read me?
Sucked into a time warp
Eye to eye
Wonder what's on your mind

We are kindred spirits
We are kindred spirits, you said
And I came into your world

Caught up in the corners
You hide your madness and milliard
You have changed your name now
Like the sky
Uphill dreams turned out fine

We are kindred spirits
We are kindred spirits, you said
And I came into your world

I am with you
Are you with me?
Do you see what I see?
Here comes the river
I am with you
Do you feel me?
I just wanna breathe you
Until the river washes you away

I am with you
Are you with me?
Do you see what I see?
Here comes the river
I am with you
Do you feel me?
I just wanna breathe you
Until the river washes you away
