

Are You Ready?

Kate Miller-Heidke

Are you all ready
Are you ready get set
Are you ready get set
Are you ready?

Are you all ready
Are you ready get set
Are you ready get set, let's go

Does your hair look right?
Is your fly done up?
Have you popped your pimples?
Have you got your coat?
And some lippy on?
Just keep it simple
Are you all cashed up?
I can lend you some?
Well I'd be glad to
Have you had a think
And a warm up drink
Now! Now! Now! Now!

Are you all ready
Are you ready get set
Are you ready get set
Are you ready?

Are you all ready
Are you ready get set
Are you ready get set, let's go

Is the cat put out?
Is the iron off?
We don't wanna come home to a fire
Have you trimmed your beard?
Are your sandals shined?
Do you look a hipster messiah?
Have you got your keys?
Have you got ID?
Did you bring a comb for Gary?
Have you had a think
And a warm up drink?
Now! Now! Now! Now!

Are you all ready
Are you ready get set
Are you ready get set
Are you ready?

Are you all ready
Are you ready get set
Are you ready get set, let's go

Leave your book
And leave the mirror
Cause you're already stunning
The sky above

Was never clearer
And the engine's running
So cast aside
Your novelty ties
And bury your vendettas
Life is short
But tonight your ass is mine!
Mine! Mine! Mine!

Are you all ready
Are you ready get set
Are you ready get set
Are you ready?

Are you all ready
Are you ready get set
Are you ready get set, let's go

Leave your book
And leave the mirror
Cause you're already stunning
The sky above
Was never clearer
And the engine's running
Well the end is nigh and
There's not much time
So get things rolling
Life is pain
But we're okay
Now! Now! Now! Now!
Now! Now! Now! Now!

What've I forgotten?
(The horns!)
No! No! No!

Are you all ready
Are you ready get set
Are you ready get set
Are you ready?

Are you all ready
Are you ready get set
Are you ready get set, let's go

Are you all ready
Are you ready get set
Are you ready get set
Are you ready?

Are you all ready
Are you ready get set
Are you ready get set, let's go
