

# Little Roots, Little Shoots

Kate Miller-Heidke

I'm in the dark forest and I'm waiting for you  
I'm in the dark forest, I'm in the dark forest  
I'm the witch, I'm the werewolf, and I'm waiting for you  
I'm in the dark forest, I'm in the dark forest  
I'm the vampire, the sprite and I'm waiting for you  
The slasher, the child, I'm waiting for you  
I'm in the dark forest, I'm in the dark forest  
I'm in the dark forest

Little roots, little shoots  
Under the ground, under the ground, under the ground they grow  
Little roots, little shoots  
Under the ground, under the ground, under the ground they grow

Pushing up (pushing up)  
Pushing up (pushing up)  
Pushing up (pushing up)  
Pushing up (pushing up)  
Pretty soon (pretty soon)  
Pretty soon (pretty soon)  
Pretty soon (pretty soon)  
Pretty soon (pretty soon)

Little roots, little shoots  
Gonna be all you know, gonna be all you know

I'm what you don't want to remember, and I'm waiting for you  
I'm right here in the mirror, looking at you  
Where did it all go wrong, where did it all go wrong  
Cause I'm in the dark forest, I'm in the dark forest

Little roots, little shoots  
Under the ground, under the ground, under the ground they grow  
Little roots, little shoots  
Under the ground, under the ground, under the ground they grow

Pushing up (pushing up)  
Pushing up (pushing up)  
Pushing up (pushing up)  
Pushing up (pushing up)  
Pretty soon (pretty soon)  
Pretty soon (pretty soon)  
Pretty soon (pretty soon)  
Pretty soon (pretty soon)

Little roots, little shoots  
Gonna be all you know, gonna be all you know

I'm in the dark forest and I'm wearing a disguise  
In a shadow, in a mask, but these are still my eyes  
I'm watching you closely, I'm measuring your pulse  
I'm always beside, I'm always beside you  
I'm treading in short, silent steps right behind  
Working up a spell so that I'll always find you  
I'm always beside you, I'm always beside you  
I'm always beside you, I'm always beside you

Little roots, little shoots  
Under the ground, under the ground, under the ground they grow  
Little roots, little shoots  
Under the ground, under the ground, under the ground they grow  
Little roots, little shoots  
Gonna be all, gonna be all, gonna be all you know  
Little roots, little shoots  
Gonna be all, gonna be all, gonna be all you know

I'm in the dark forest and I'm wearing a disguise  
In a shadow, in a mask, but these are still my eyes  
I'm watching you closely, I'm measuring your pulse  
I'm always beside, I'm always beside you  
I'm the vampire, the sprite, I'm waiting for you  
The slasher, the child, I'm waiting for you  
Where did it all go wrong  
Where did it all go wrong  
Where did it all go wrong  
Where did it all go so wrong?
