

## She Rules

Kate Nash

She is the one, she is the one  
That I can count on, that I can count on  
She gives me what I need to function  
To make it happen  
Yeah, she makes shit happen

She rules and I need her  
She rules and I need her  
She rules and I need her  
She rules and I need her

She is the one that I will think of  
When I'm down on my luck  
Yeah, I'm down on my luck  
And everything she does, yeah I will breathe  
And everything she does, yeah I will bleed  
Well everything she does means something to me

She rules and I need her  
She rules and I need her  
She rules and I need her  
She rules...  
She rules and I need her  
She rules and I need her  
She rules and I need her  
She rules...  
She rules and I need her  
She rules and I need her  
She rules and I need her  
She rules...
