

# Madness

Kate Ryan

Can't get you out of my head - head  
I know I should let it go  
But I just can't forget - get  
Yeah I'm still lying here in bed - bed  
Going over everything we said - said

And it's really not my fault  
I don't know what to do  
It's tearing up my heart  
That I'm hung up on you  
I don't want to  
Don't wanna shed another tear - tear  
But I just can't control what I feel

And I know this is madness, madness  
I really should forget all about it  
Yeah I know this is madness, madness  
I guess I must be out of my mind

Cause all I want is you, you  
Can't get over you, you  
All I know is you, you  
No one else but you  
All I want is you, you  
Can't get over you, you  
All I know is you, you  
No one else but you

Tried going out with my friends - friends  
Staying out all night, I tried every type  
Of distraction, oh  
Just when I think it's gonna end - end  
Close my eyes and there you are again - gain

And it's really not my fault  
I don't know what to do  
It's tearing up my heart  
That I'm hung up on you  
I don't want to  
Don't wanna shed another tear - tear  
But I just can't control what I feel

And I know this is madness, madness  
I really should forget all about it  
Yeah I know this is madness, madness  
I guess I must be out of my mind

Cause all I want is you, you  
Can't get over you, you  
All I know is you, you  
No one else but you  
All I want is you, you  
Can't get over you, you  
All I know is you, you  
No one else but you

And I know this is madness, madness

I really should forget all about it  
Yeah I know this is madness, madness  
I guess I must be out of my mind

Cause all I want is you, you  
Can't get over you, you  
All I know is you, you  
No one else but you  
All I want is you, you  
Can't get over you, you  
All I know is you, you  
No one else but you

And I know this is madness, madness  
I really should forget all about it  
Yeah I know this is madness, madness  
I guess I must be out of my mind
