

# PRITTY

Kate Voegele

It's creeping in through the crack in the ceiling  
I watch it drip down the wall  
Hysteria, oh, oh what a feeling  
Crashing in like a waterfall

I know it's not pretty when I get like this  
I know it's not pretty when I get like this  
I know it's not pretty when I get like this  
But I'm so pretty you put up with it

But you're not ready for it  
But you're not ready for it  
But you're not ready for it  
But you're not ready for it

A little flea in a web of destruction  
You're on your knees like a sinner in church  
You're begging please could you just give me something  
A little blessing to go with the curse

But you're not ready for it  
But you're not ready for it  
But you're not ready for it  
But you're not ready for it

I know it's not pretty when I get like this  
I know it's not pretty when I get like this  
I know it's not pretty when I get like this  
But I'm so pretty you put up with it

But you're not ready for it  
But you're not ready for it  
But you're not ready for it  
But you're not ready for it

I know it's not pretty when I get like this  
I know it's not pretty when I get like this  
I know it's not pretty when I get like this  
But I'm so pretty you put up with it

But you're not ready for it  
But you're not ready for it  
But you're not ready for it  
But you're not ready for it
