

All Our Friends Are Splitting Up

Katelyn Tarver

[Verse 1]

I need to get some air, I need a change of scene
I don't know if you care if I stay or leave
I know we process things a little differently
But I'm jumping off the bridge while you watch TV

[Pre-Chorus]

All our friends are splitting up
Never saw 'em fall out of love
And I would die if that were us

[Chorus]

Oh, is this just how it goes?
You fall in fast and it falls apart so slow
All I really know
Is I won't give it up, won't give it up, won't give it up if you won't
If you won't

[Verse 2]

We watch the seasons change, we pick a place to eat
We just ignore the rain till we're in too deep
I used to bite my tongue, find something else to blame
But there's nowhere left to run 'cause I can't walk away

[Pre-Chorus]

All our friends are splitting up
Never saw 'em fall out of love
And I would die if that were us

[Chorus]

Oh, is this just how it goes?
You fall in fast and it falls apart so slow
All I really know
Is I won't give it up, won't give it up, won't give it up if you won't
I won't give it up, won't give it up, won't give it up if you won't

[Bridge]

Oh, is this just how it goes?
You fall in fast and it falls apart so slow
I really hope you know
That I won't give it up, won't give it up, won't give it up, no, no

[Chorus]

Oh, is this just how it goes?
You fall in fast and it falls apart so slow
All I really know
Is I won't give it up, won't give it up, won't give it up if you won't
I won't give it up, won't give it up, won't give it up if you won't

[Outro]

All I really know, all I really know
Is I won't give up on us
