

## Downhill From Here

Katelyn Tarver

I'm done taking advice from anybody under fifty  
Spent too much of my time hoping somebody could fix me  
Hinge my confidence on thoughtful friends, so when I mess up it  
's not all my fault but  
I'm done taking advice from anybody under fifty

Swore I'd never end up feeling bitter and jaded  
Next thing I knew I was someone I would've hated

You can think it won't get worse, then the floor disappears  
You can know something for sure, then it's gone in a year  
And I miss those younger days  
When it all felt clear  
And I know what to fear  
Is it all downhill from here?

Found the love of my life but I still get kinda lonely  
No one says what it's like when the feelings don't come easy  
You can love someone with all you got, but it doesn't mean it'll  
be enough  
Yeah, it's not all black and white wish somebody would've told  
me

Swore I'd never end up feeling bitter and jaded  
Next thing I knew I was someone I would've hated

You can think it won't get worse, then the floor disappears  
You can know something for sure, then it's gone in a year  
And I miss those younger days  
When it all felt clear  
And I know what to fear  
Is it all downhill from here?  
Is it all downhill from here?  
Is it all downhill from here?

I'm done taking advice from anybody under fifty
