

## Fall Apart Too

Katelyn Tarver

Okay, so i'm a little emotional  
I can turn a tear into a waterfall  
Leave you swimming  
Floor to the ceiling  
In my feelings  
But you make it comfortable

I know that you love to keep me happy  
Even when I make it all about me  
You're the only one I let see down deep  
Trust me when I tell you

You can fall apart too  
Let me be there for you  
I know you never ask me to  
But let me be there for you

I know you don't like all of the attention  
And I know you never wanna play the victim  
I'm sorry if I ever made you feel like  
You always gotta be the one that's alright, alright

I know that you love to keep me happy  
Even when i make it all about me  
You're the only one I let see down deep  
Trust me when I tell you

You can fall apart too  
Let me be there for you  
I know you never ask me to  
But let me be there for you  
For you, for you

You can fall, you can fall  
You can fall on me  
I learned it all  
Learned it all from you  
And if you fall, if you fall  
If you fall on me  
I got you, got you, got you

You can fall apart too  
Let me be there for you  
I know you never ask me to  
Let me be there for you
