

# Why

Katelyn Tarver

You broke my heart  
You promised you never would leave me all alone waiting by the phone  
For your call to me

I gave you my everything  
As perfect as two could be  
Now I just can't see, it was you and me  
Wondering where we'd gone

Tell me why  
Do I cry at night, hold my pillow tight  
Over you and I  
No I can't deny  
What I feel inside  
Won't tell me the reason  
Won't show me a sign  
Tell me why

I took a chance  
And you promised me romance  
Never thought I'd be, feeling lost and weak, what's come over me  
So now that you're gone (now that you're gone)  
Though it's hard to move on, time to say goodbye, there's no one more try  
Yeah, we're set and done

Can you tell me why  
Do I cry at night, hold my pillow tight  
Over you and I  
No I can't deny  
What I feel inside  
Won't tell me the reason  
Won't show me a sign

Can you tell me why you think that I won't get over you  
There's nothing holding me back from finding somebody new  
Can you tell me why, why, why  
Why, why, why

Why  
Do I cry at night, hold my pillow tight  
Over you and I  
No I can't deny  
What I feel inside  
Won't tell me the reason  
Won't show me a sign

Can you tell me why  
Do I cry at night, hold my pillow tight  
Over you and I  
No I can't deny  
What I feel inside  
Won't tell me the reason (the reason)  
Won't show me a sign  
Tell me why
