

# Beautiful Stranger

Katharine McPhee

I was a line and faith  
It was worth the wait  
We're here face to face together  
All the candle lights  
Caught us by surprise  
Now we see our eyes forever

You set me free  
From the past about me  
A beautiful stranger  
That came here and found me  
I'd always chase love  
But never face love  
Now I can see you set me free

Asked my disguise but you  
Stole it to my eyes  
You realized we were connecting  
And I understood and you knew  
That I would fall for you  
I come through not expecting

Oh you've set me free  
From the past about me  
A beautiful stranger  
That came here and found me  
No need to chase love  
But, now I can face love  
Now I can see you set me free  
Yeah

You're all I need (You're all I need)  
The air that I breathe  
I survived  
Right by your side (Right by your side)

You set me free  
From the past about me  
A beautiful stranger  
That came here and found me  
I always chase love  
But, never face love  
Now I can see you've rescued me

You set me free  
From the past about me  
A beautiful stranger  
That came here and found me

I always chase love  
But, never face love  
Now I can see you've rescued me  
Yeah...

You're all I need (You're all I need)  
The air that I breathe (Love)  
Now I can see

You set me free  
Ohhh... I... yea...
