

Tell The Truth As If It Were Lies

Kathryn Williams

You said your words i walked to the door
Then you walked behind me
Went to the station the train was late
You said i feel dead
In this place
You listen to yourself
All of the time
Cut off every line i say
How did you turn it all around
I won't be playing your game today

You tell the truth
As if it were lies
You tell the truth
As if it were lies

I did what i could to make myself seen
But you said you liked secrets
Well here is a secret just for you
I'm more now i'm not with you
Everything is an act, every line is a test
You're clothes are just a costume
The beauty you keep is not from within
You'll be saying bye bye bye bye bye bye to it soon

You tell the truth
As if it were lies
You tell the truth
As if it were lies

You said your words i walked to the door
Then you walked behind me
Went to the station the train was late
You said i feel dead
In this place

You said you said you said you said
