

# Who Turned Out the Light

Kathy Mattea

This room used to be the room where you and me  
Xame to love the slow mivin' nights  
Just like the morning star we had that lovers' spark  
Nothing could hide the fire in our eyes

Now we're reachin' in the dark for what we need  
Runnin' into walls that we can't see  
Who turned out the light who decided we weren't right  
What took the shine off a brand new love  
Who turned our gold to rust left us lyin' in the dust  
Just when love was burnin' bright who turned out the light

Was it you or me who brought on this winter freeze  
Baby did we move too fast too soon  
And if we could trace our tracks could we feel our way back  
The picture is fading but I remember you

Oh we're reachin' in the dark...  
Just when love was burnin' bright who turned out the light  
Just when love was burnin' bright who turned out the light
