

## All I Must Do

Kathy Troccoli

And I've learned my lesson well  
With my eyes on me I fell  
And there's no one left to blame  
Cause it's me who brings the pain

Chorus:

And all I must do is die to me  
That is the way You make me free  
I would give all my dreams  
I'd give everything  
Just to have you living in me

When I'm walking on my own  
And my heart grows cold as stone  
Lord, Your heart must break in two  
When I walk away from me

Repeat Chorus Twice

Just to have You living  
Just to have You living in me
