

# Hand In Hand

Kathy Troccoli

Read the morning paper  
Boy, it sure looks bad  
Satan's workin' hard  
To make this world go mad  
But I believe there's more to life  
Than really meets the eye  
You and I will live when  
This world's long gone by

Hand in hand  
With the past left far behind  
Through the darkest night, we'll shine  
And together we will stand  
Hand in hand  
We become a mighty wall  
We will march right past it all  
We will find that promised land

Nothing lasts forever  
So we've all been told  
But you and I know better  
God is in control  
Heaven is a doorway  
Jesus is the key  
There's a new world waiting  
Come and walk with me

Hand in hand  
With the past left far behind

Through the darkest night  
We'll shine and together we will stand  
Hand in hand  
We become a mighty wall  
We will march right past it all  
We will find that promised land

Hand in hand  
With the past left far behind  
Through the darkest night  
We'll shine and together we will stand  
Hand in hand  
We become a mighty wall  
We will march right past it all  
We will find that promised land

Hand in hand  
With the past left far behind  
Through the darkest night  
We'll shine and together we will stand  
Hand in hand  
We become a mighty wall  
We will march right past it all  
We will find that promised land
