

## If Only

Kathy Troccoli

Memories you made with me  
Still fill my mind  
When you doubted I questioned why  
A thousand times  
It hurt to have to say goodbye  
Without the chance to say a little more

(Chorus)

And if only you could hold me now  
And if only you could know somehow  
All the love I'd love to show  
Oh daddy  
If only you could know

Many tears have filled the years as I grew  
There were times that I would find me missing you  
And even though I'm older now  
I never have outgrown my need for you

(Chorus)

And if only you could hold me now  
And if only you could know somehow  
All the love I'd love to show  
Oh daddy  
Oh daddy  
Somehow I think you know
