

# It's the Small Things

Kathy Troccoli

It's the small things of all things  
That make a hero out of you  
Just a little goes a long way  
From God's point of view  
It's the small things that spread wings  
And fly on up to the throne  
Like letting compassion speak through your actions  
And letting it start right at home

So be faithful in the small things  
He wants to give you a special touch  
The Creator of all things  
Will make you ruler over much  
So be faithful in the small things  
He wants to give you a special touch  
The Creator of all things  
Will make you ruler over much  
Will make you ruler over much

It's the small things of all things  
That sometimes are too good to be true  
All the goodness that you've givin'  
Will come right back to you  
It's the small things that make kings

And kingdoms rise and fall  
A lot for a little is God's kinda riddle  
He puts you on top of it all

So be faithful in the small things  
He wants to give you a special touch  
The Creator of all things  
Will make you ruler over much  
So be faithful in the small things  
He wants to give you a special touch  
The Creator of all things  
Will make you ruler over much  
He'll make you ruler over much

You know you gotta  
Be faithful in the small things  
He wants to give you a special touch  
The Creator of all things  
Will make you ruler over much  
So be faithful in the small things  
He wants to give you a special touch  
The Creator of all things  
Will make you ruler over much...
