

Take Me With You

Kathy Troccoli

If You want to go up to the mountains
If You want to walk upon the sea
If You travel through the deepest valleys
Then that's where I want to be

Take me with You
Take me with You
Take me with You

I know that You heal the broken hearted
I know that You reach for lonely souls
You will always love where hate is planted
And that's where I want to go

Take me with You
Take me with You
Take me with You

You have gone before me into heaven
You have told me I'll no longer cry
Someday I will be completely home
Oh I know that when I die

Take me with you
Take me with you
Take me with you
Take me with you

Take me with you
Take me with you
Take me with you
Take me with you
