

New York Graffiti

Katie Costello

The sun comes up over the brooklyn bridge
A brand new day, I got so much to give
These days it's hard to sleep
Got a fire it's burning in me, I won't stop now
I'm gonna make my mark
Even when trouble starts, I won't back down

You're gonna see me
Like new york graffiti
I put my name up on the wall
I'm not afraid to risk it all
I'm showing all my colors now
Don't even have to shout so loud
Oh you're gonna see me
Like new york graffiti

Hit the streets drunk on city lights
Make my wish and watch the stars align
Every day is a gift
And I'm buying into it, I won't let go
Turn up the stereo
My heart beats like a radio, this is home

You're gonna see me
Like new york graffiti
I put my name up on the wall
I'm not afraid to risk it all
I'm showing all my colors now
Don't even have to shout so loud
Oh you're gonna see me
Like new york graffiti

See me, hear me, I got soul
No matter what the future holds
I'm keeping the faith because I know it's alright
I'm living my own dream tonight

You're gonna see me
Like new york graffiti
I put my name up on the wall
I'm not afraid to risk it all
I'm showing all my colors now
Don't even have to shout so loud
Oh you're gonna see me
