

# Inconsolable

Katie Gavin

You said, "Stay with me  
And we'll fall asleep"  
I was sitting on the couch and I put my hood up  
Couldn't let it be  
Couldn't let you see  
If I could've done better than you know I would've

Wanna say it first, but I don't have the words

We're from a long line of people  
We'd describe as inconsolable  
We don't know how to be helped  
Yeah, we're from a whole huddle of households  
Full of beds where nobody cuddled  
We don't know how to be held  
But I've seen baby lizards running in the river when they open their  
eyes  
Even though no one taught them how or why  
So maybe when you kiss me, I can let you see me cry  
And if we keep going by the feeling, we can get by  
Yeah, if we keep going by the feeling, we can get by

You do it too  
When you're in a mood  
You go hidin' in your house, tryin' to be your own savior  
Why can't you see?  
I love you, even when you're acting out on your worst behavior

But I know why  
You won't let me inside

We're from a long line of people  
We'd describe as inconsolable  
We don't know how to be helped  
Yeah we're from a whole huddle of households  
Full of beds where nobody cuddled  
We don't know how to be held  
But I've seen baby lizards running in the river when they open their  
eyes  
Even though no one taught them how or why  
So maybe when you kiss me, I can let you see me cry  
And if we keep going by the feeling, we can get by  
Yeah, if we keep going by the feeling, we can get by

Hey, hey  
Woo hoo, woo hoo, woo hoo  
Hey, hey  
Woo hoo, woo hoo, woo hoo
